TOTAL BUSINESS ON 'CHANGE FALLS UNDER 95,000 SHARES.

Heavy Engagements of Gold Depress the Dealings in Stocks-Local Markets Without Change.

At New York, yesterday, money on call was easy at 1711 per cent.

Prime mercantile paper, 2%@4 per cent. Sterling exchange strong, with actual business in bankers' bills at \$4.89\\@4.89\ for demand, and at \$4.88% @4.88% for sixty days; posted rates, \$4.89@4.90; commercial

Silver certificates, 60c bid. Bar silver, 59%c. Mexican dollars, 48%c. At London, bar silver, 277-16d.

Total sales of stocks were \$4,822 shares, including the following: American Sugar, 10,100; Burlington, 4,100; Chicago Gas, 7,100; Distilling, 7,100; General Electric, 3,200; New Jersey Central, 3,200; Northwest, 4,900; Reading, 3,800; Rock Island, 4,900; St. Paul,

The volume of the business on the stock exchange yesterday was even lighter than Thursday. The heavy engagements of gold for shipment to-day had a depressing effect on speculation and restricted the transactions, which aggregated less than 95,000 shares. There were small sales for the foreign account in the early dealings, which helped the depression, but there was no great pressure to sell, and there were Juring the morning some rallies. After midday the market became almost stagnant, the trading being mostly in the specialties, which were quite weak, while Chicago Gas, Sugar, the grangers, and most of the usual active stocks were without important change. About delivery hour the temper of speculation underwent a change for the better, what little trading there was being on the bull side of the market. Prices continued to advance to the close and the final trading was firm in tone. Compared with the closing figures of Thursday the final quotations are ir-regular, but a majority of the stocks dealt in show losses on the day. In the list of advances are Sugar common, %: Northwest preferred and St. Paul preferred, ½; Chicago Gas, %. It is said that one operator took more than one-half of the stocks offered for sale.

There was an absence of animation dur-There was an absence of animation during the trading in the morning in the bond market, but prices were generally well maintained. The subsequent dealings were increased in volume, and a decided decline in prices took place. The total transactions for the day were \$1,225,500.

Government bonds were steady. State bonds were inactive.

The following table, prepared by James E. Berry, Room 16, Board of Trade, shows the range of quotations:

Total clearings last week amounted to \$917,003,847, being an increase of 10.3 per cent. over the corresponding week last Total outside of New York amounted to \$429,765,437, an increase of 10 per cent.

LOCAL GRAIN AND PRODUCE. Trade Rather Quiet Yesterday, with

Few Changes in Values. On the wholesale streets and on Commission row yesterday trade was dull, even grotraveling salesmen who came in on the afternoon trains brought a good run of orders and spoke cheerfully of the outlook for business in the future. Sugars are firm and three grades a shade higher, but not quotably changed. Coffees are firm and all staple

ity is noticeable in the provision market since prices seem to have touched bottom and vegetables are unchanged in price and retail merchants make their purchases much on to the hand-to-mouth policy, not stockiron merchants speak of trade as good. The flour market shows a little more activity but prices are very low

The local grain market is quiet, attendance

The local grain market is quiet, attendance on 'Change small and the bidding came. Receipts of cereals are moderate. Track bids yesterday ruled as follows:

Wheat—No. 2 red, 52c; No. 3 red, 50c; wagon wheat 52c.
Corn—No. 1 white, 40½c; No. 2 white, 40½c; No. 3 white, 40½c; No. 2 white mixed, 40c; No. 3 white mixed, 40c; No. 3 white mixed, 40c; No. 3 mixed, 40c; No. 2 mixed, 40c; No. 3 mixed, 40c; ear corn, 39c.
Oats—No. 2 white, 33c; No. 3 white, 31½c; No. 2 mixed, 20½c; No. 3 mixed, 29c; rejected, 28630c.
Rye—No. 2, 45c for car lots, 43c for wagon Rye-No. 2, 45c for car lots, 43c for wagon

Bran, \$12. Hay-No. 1 timothy, \$9; No. 2, \$8; No. 1 prairie, \$7.50; mixed, \$6.50; clover, \$6.50 per Poultry and Other Produce.

(Prices Paid by Shippers.) Poultry-Hens, 6c per lb; chickens, 6c; cocks, 3c; turkeys, toms, 4c per lb; hens, 7c per lb; ducks, 6c per lb; geese, \$4.89@5.49 per dozen for choice.

NO RELIEF IN SIGHT

EVENTS SINCE JAN. 1 HAVE NOT HELPED GENERAL BUSINESS.

Dun & Co.'s Review of Trade Contains Gloomy Forebodings-Bradstreet Finds Little Encouragement.

NEW YORK, Jan. 25 .- R. G. Dun & Co.'s weekly review of trade, which issues tomorrow, will say: Events have not helped business this week. About \$1,880,000 gold has been withdrawn from the treasury, mainly for export, and the gold reserve has been reduced to about \$58,000,000. Since Dec. 8, the treasury has lost, in thirty-nine working days, about \$53,000,000 in gold and daily increasing distrust is liable to affect markets unfavorably. Industries have not yet found sufficient demand for their products to prevent further decline in prices and this week the average for all commodities has again touched the lowest point ever known. The number of hands employed does not increase and a strike has cut off, for more than a week, about half the business of Brooklyn, to some extent affecting trade here. At bottom business hesitates, but the future is clouded and the consuming demand has not increased in January as was expected. In belief that it would industries had enlarged production and until it does the excess of producing capacity constantly tends to depress prices both in iron and steel. A better demand appears for bars in Pittsburg, but at Chiactions in rails are reported and in general the demand in finished products is considered disappointing. The anthracite coal traffic is again much disorganized. The min-or metals are a shade stronger, but tin plates are lower with considerable business. Heavy sales of wool, 6,567,150 pounds, against 5,661,350 pounds two years ago, are, in part, the result of growing confidence among manufacturers that they will be able to meet foreign competition, and, in part, because prices are not thought likely to go lower, so that some have purchased be-yond their orders for goods. The market is broader, about half the sales being of territory wool, for mixture with Australian. Carpet mills are conservative, some having sustained heavy losses last year. Receipts of foreign wool are large and holders pushing to sell. Openings of additional lines of men's woolens indicate a general reduction of 5 to 10 per cent. on last year, but quota-tions are unstable, further changes being ooked for both in domestic and foreign goods. Duplicate orders for light weights are not equal to expectations, though for

many works they come too late and are re-Wheat has sold at the lowest point ever known for the May option, and spot has declined 4c for the week, liquidation of the immense holdings of the Fair estate being rumored. For most people the great visible supply and the pressure of quantities carried for speculation in elevators justify extreme low prices, as there is nothing as yet to indicate material decrease in the part of the property of the next crop. Receipts, at present, are smaller than a year ago, but since July 1 have been 119,000,000 bushels, against 120,600.000 bushels last year. Atlantic exports only 847,756 bush-els for the week, do not suffice to support the market. Corn has declined 24c, though receipts are shrinking. Liquidation in pork has brought a sharp decline. Cotton barely escaped the lowest point on record, with eccipts from plantations nearly bales larger than at the same date when the crop was 9,000,000 bales and stocks of American here and abroad 309,000 bales larger than at the same date that year.

Failures, this week, have been 363 in the United States, against 430 last year, and fifty-nine in Canada, against fifty-five last

Bradstreet's Trade Review. NEW YORK, Jan. 25.-Bradstreet's Review to-morrow will say: Special telegraphic and mail advices from the more important distributing centers fall to relate any marked improvement in the movement of merchandise and products, and the conclusion is forced that the great trade situation remains as previously characterizedby small volume, low prices, hand-to-mouth sales and the outlook favoring a very conservative trading for some time to come. Gains in demands have been noteworthy only at Eastern woolen mills for men's wear fabrics, among Providence manufacturing jewelers, while the dealers in staples at Augusta, Memphis and New Orleans and in the West and Northwest at St. Louis, Kansas City, St. Paul and Minneapolis, only improvement being rather by contrast with recent duliness than with the volume of trade ordinarily transacted at this season. An exception is in wool sales, though prices are no higher. Mills report unexpectedly heavy orders of men's wear woolens for fall delivery, in spite of foreign competition clothiers having placed the bulk of overcoatings and general suitings con-tracts with domestic mills. Transactions in prices and ginghams are of fair proporin prices and ginghams are of fair proportions, the latter having been simulated by cut in prices. Prices of staple articles support a tendency toward improvement, there being nine showing an advance, ten which are firm at the range of a week ago and five of importance which are lower. Advances in quotations for petroleum, tin and (prospectively) for iron ore are due to these products being practically in the control of dealers, or producers, or both. Smaller receipts of cattle, poultry and potatoes, due to the severe weather, have put up prices. Other advances are for wheat, lard and turpentine, wool, leather, hides, lumber, sugar, rosin, hogs, Bessimer pig and steel billets and rails are reported firmly held, although the Philadelphia iron market shows signs of weakness. The falling off in ginghams has been recovered, but declines remain in quotations for pork, cotclines remain in quotations for pork, cotfrom both coasts of the United States this week amount to 2.840,000 bushels; last week the total was 3,564,000 bushels, somewhat larger than usual. One year ago the total was 2,947,000 bushels; two years ago, 2,531,000

oushels, and three years ago it was 3,557,000 The dull resistance which prices in the The dull resistance which prices in the New York speculative stock market offer to the heavy gold shipments and rapid shrinking of the treasury gold reserve would indicate a belief that when matters come to a crisis relief is more likely to be obtained. There has been some liquidation in the stocks of properties subject to reorganization and on which heavy assessments are anticipated. Apart from this, however the hears still find creat difficulty. ments are anticipated. Apart from this, however, the bears still find great difficulty in dislodging stocks. Some selling in investment securities is reported for European

For an Old Settlers' Reunion. To the Editor of the Indianapolls Journal: Some months ago I read an article in the Journal, copied from the New Castle Courier, suggesting the holding of an old settlers' convention in Indianapelis. Why not hold an old settlers' reunion during the week of the State Fair, and request the State board to make one day old settlers' day? With reduced railroad fares it would give the old settlers an opportunity to visit the capital of the State. C. P. BULLA.

Tipton, Ind., Jan. 24

STILL ON THE SLUMP MAY WHEAT AT CHICAGO MAKES A

Continued Free Selling and the Fallure of a Commission Firm Sent the Market Downward.

NEW LOW-PRICE RECORD.

CHICAGO, Jan. 25.-Under continued free selling, wheat broke again to-day, and in so doing also broke the low price record, May touching 53%c and closing at %c lower. The failure of William Young & Co., aided in the decline. May corn closed unchanged, May oats 16c lower and provisions at slight advances. At the opening wheat sold at from 1/2c to

%c declines compared with the closing

prices of the day before. May was offered at from 53%c to 53%c, and a large quantity changed hands at these prices. As on the preceding days of the week, the selling had nothing to do with the change in the general situation. The people were selling out their wheat simply from lack of ability to hold it. A great deal of covering of short wheat for local heavy speculators in the first hour of the session turned the market, May recovering under that influence to 544@54%c by 11 o'clock. There were rumors of a heavy export business at the seaboard, which helped to bring about the improvement, but that was denied a little later, and on that the market gave indications of returning weakness. Primary market receipts were about 219,000 bushels against 209,000 on the corresponding day of last week, and 187,000 bushels on the similar week a year ago. The Liverpool market was quoted opening weak and %d lower, but closing 1/4d recovery from the opening decline. The export clearances of wheat and flour from the four principal Atlantic ports were equal to 235,000 bushels. A notice was posted from William Young & Co., ordering all their trades closed. The house was long a large amount of

The house was long a large amount of wheat, the selling out caused a reaction and the market soon went to 53%c. It is said that the embarrassment of the firm was known to many at the opening and that the selling out for its accounts was the true cause for the early weakness. The market turned exceedingly weak during the last hour, liquidation being vigorously resumed, and May fell to 53%c, making a new record, but reacted to 53%c, where it closed. The demand for cash corn was good at from 4c to 5c advance on yesterday's prices. Through billed corn was less lively than on the day before, but to go to store No. 3 yellow brought 41½c, while 40½c was the price in store. Thus the elevator people were paying 1 cent per bushel premium ple were paying 1 cent per bushel premium to get the privilege of storing the corn. Trade in futures was only fair in amount. May opened at 45c and 454c simultaneously. It ran to 45%@45%c, dropped back to 45%c and firmed up again to 45%c at the close. The decline in the middle of the session was in sympathy with the weakness in

Oats were fairly active throughout the session, although trading was scattered and principally in small lots. The early market was considerably easier, influenced by the weakness in wheat. The firmness holding out in the cash market, however, rallied prices later, and at the close May was 1/sc over yesterday's last quotation. Shorts were buying to some extent. May sold from 29@29%c to 29%@29%c.

The provision market opened firm, at a little improvement on yesterday's closing quotations. The receipts of hogs were comparatively small and the estimate for to-morrow was light. The buying was prin-cipally by shorts, and at an advance of from 5c to 7½c; this secured there were again free sellers. The weakness in wheat had its effect, and about the middle of the session prices had dropped below the clos-ing rates of the previous day. The latest influence on the market was the diminish-ing hog receipts, which reasserted itself after having been snowed under for a while, and the closing rates were 2½c higher for May pork and ribs and 7½c higher for May lard.

Receipts for to-morrow are estimated as Wheat, 50 cars; corn, 173 cars; oats, 85 cars; hogs, 11,000 head. Leading futures ranged as follows:

Open- High Low- Clos-Articles. ing. est. est. Wheat-Jan ... May July Cern-Jan May 447% 281% 291% \$10.30 10.50 Oats-Jan.. \$ 295 \$10.371 10.621 Pork-Jan Lard-Jan Ribs-Jan May 5.52 5.60 Cash quotations were as follows:
